Hey Rod, Aaron here from The Tube Shack.

Im at that time of year when we start planning operations, hiring and investing for the upcoming tubing season. I was just wanting to have a chat with you about whether or not we will be able to operate this season and if so, what limitations we might have. Im unsure as to what authority i need to get in touch with to clarify how things will work this summer if we are at a 50 person max limitation.

Maybe you have spoken to someone who could help me out with these questions or may know the answers already.

If you could give me a call, anytime, that would be great.

Aaron
