Re: Letter from Beverly Suderman, Cowichan Housing Association/Parks Recreation and Culture Committee meeting

Mayor and Council

It has been brought to the attention of Cowichan Lake Community Services Society's Board of Directors that a letter from Beverly Suderman, Cowichan Housing Association, is on the agenda for the next Parks, Recreation and Culture Committee meeting. In that letter it mentions that CLCSS will provide "services and support for 12 months" specifically for individuals that will be sheltered in temporary units. This is a surprise to us. We do not have a qualified employee for such a position at this time.

As you may know, Melaina Patenaude, does not work with CLCSS anymore. Perhaps the services and support mentioned is something Ms. Patenaude talked about in regard to the extension project that is no longer going forward but the Board was not made aware of. When a new Executive Director begins we will reassess CLCSS's future along with any new programming and the implementation of them. The current programming will continue as is but going forward may be offered differently. CLCSS is currently not available to offer anything more.

Sincerely,

A handwritten signature in black ink, appearing to read "Paula MacGregor". The signature is fluid and cursive.

Paula MacGregor  
Vice-president  
Cowichan Lake Community Services Society Board of Directors
