Notice To Residents

Greendale and Rockland Road Watermain Upgrades

Hazelwood Construction Services Inc has been awarded the contract for **Greendale and Rockland Road Watermain** by the Town of Lake Cowichan.

The project involves installation of new watermain and service connections along Greendale and Rockland Roads and to a lesser extent Nootka and Olson Roads.

The construction has commenced with on-site preparations and will begin in earnest with excavation starting Monday Nov 20th. Work schedule will be 5 days per week - 7 am to 7 pm, with possible work on weekends. The work will continue until mid-February with final patch paving in April when the paving plant re-opens.

During the work there will be temporary disruptions to normal traffic patterns and traffic control persons and signage will be in place to guide you. Please be patient and respectful of TCPs and workers as we are making every attempt to minimize inconvenience but must ensure safety while getting the work done.

From time to time there will be scheduled disruptions to water service and affected residents will be notified in advance. Unfortunately, due to the nature of construction there may be unscheduled disruptions during the work as well. During such times we will work quickly to restore service but there may be inconvenience.

Emergency Hazelwood contacts for this project are:

- **Site Superintendent --- Chad McGarrigle 250 714-9769**
- **Project Manager – Jeff Stevens 250 756-6907**
- **Hazelwood Nanaimo office 250 716-1940**

We look forward to a successful project and it is not our intention to cause unnecessary disruption to affected residents. Should you have real concerns during the work please feel to contact us.

Sincerely

Jeff Stevens, ASCT
Hazelwood Construction Services Inc
