Subject: Derelict dock

Hello,

My name is John Jefferson.

In late August, my wife Shannon and I purchased our new to us home at 297 North Shore Road. We rented the home out until June 30, at which time we will be moving from White Rock to Lake Cowichan. (Can't wait)

When we purchased the home, we were thrilled with the fact that there was lake access available through public land across the road, hopefully to quietly sit on the shore or launch a canoe or kayak.

We were not impressed with the ugly old dock that was secured in front of the area. Neighbors told us it had been there for decades.

Needless to say, I was pleased to get the notice regarding the removal of this old dock by June 30 by the town.

We don't own it, and will look forward to the town removing it.

Regards,
John Jefferson
