

Lake Cowichan Community Health & Resilience Plan

Community Healthcare Systems (CHS) is working with local residents, partners, and service providers to develop a community-driven plan that strengthens primary care access, improves health outcomes, and builds long-term community resilience in Lake Cowichan.

Your input is essential. The plan relies on the lived experiences of Lake Cowichan community members to identify what is working, what is missing, and what local solutions should be prioritized.

Have Your Say

Scan the QR code below to complete the Community Health & Resilience Survey. Your feedback directly shapes the priorities and recommendations in the CHS plan.

Thank you for contributing to a healthier, more resilient Lake Cowichan.
