Subject: Mayor's leave of absence

The situation with my wife's condition is not improving as well as expected. She isn't walking well enough to leave her unassisted at home and she contracted C-difficile again. Also she's retaining fluid in her feet, legs and abdominal cavity. This is the sign that her liver is not functioning properly. I have stopped being involved with my business so I can take care of Karen. But I have decided to resign as Mayor because Karen is my number one priority and don't to jeopardize her health and have no idea what time she has left. I'm almost 71 years old and Karen is 73. I think it's time I spend my time looking after her. I apologize for resigning but Karen needs my help having some quality life and I am going to help her all I can
Thanks for your support during my time as Mayor. Thanks Rod Peters
