RE: Decoration of new space

As citizens we are excited to see the refurbishment of Town Hall.
As artists we would like to contribute to the finished look.

In view of these two statements, we would like to offer to paint a large image to adorn the walls of your meeting room.

Thanks to a donation by South Shore Cabinetry, we have pre-framed painting surfaces that would be a great base for a large painting. There are many sizes however we feel that one large image would work better than several smaller ones. This would still leave space on your walls for plaques, special framed letters and items of special interest while giving the space a focal point.

The actual image in the painting would be discussed with the council and a rough sketch would be submitted for approval before painting. We do not ask for any funds for this project but would be appreciative of anything that might be donated for paint supplies.

Attached is a copy of one of the forms we would like to use as the base for the installation. It is 7 feet long a just under 3 feet tall.

We anticipate creating something that will be a supportive background to the work of the council and help to create a positive atmosphere for the room.

Looking forward to your reply and a start on this project.
