

Memo

TO: Chief Administrative Officer

FROM: Director of Finance

DATE: October 8, 2021

SUBJECT: Command Truck Purchase

In discussions with the Fire Chief, the fire department is proposing to purchase a pickup for the replacement of the FD#4 command truck. The existing truck will be used as a wildland fire truck. Grant funding in the amount of \$15,000 is available to equip the current command truck with wildland fire equipment.

As the Lake Cowichan Fire Department was deployed to Vernon and Cache Creek to assist with the wildfires in BC, the funds to purchase the new truck will come from the wildfire revenues.

Currently there is a six-month delay in delivery of equipment, therefore Council approval is requested to proceed with the order and purchase of the command truck.

Ronnie Gill, CPA, CGA
