February 9, 2023

RECEIVED MAR - 2 2023

To Whom It May Concern

During the morning of April 5, 2023, Lake Cowichan School will be holding a Health Fair. Students from Careers 10 will be presenting their research on various health topics and activities in the gym. The goal of our Health Fair is to inform the students and community about health issues and opportunities in our area. The fair will be open to the community as well as to students in our local schools.

I am wondering if you would be interested in setting up a booth at the fair to provide information about the health or career benefits that are available through your organization. I am hoping to show the students local, healthy activities that they can participate in or consider as a career, as well as local resources that they can access if they have a health concern.

Please contact me at the school, as soon as possible, by phone or email, if you have any questions or to let me know if you are able to attend and present. I would like to have presenters booked before the end of March so that I can map out where booths will be. Thank you and I look forward to hearing from you soon.

Sincerely,

Noni Battye
